**Good to know: The Well Endowed Podcast**

ECF’s donors know it is good to be well endowed. After all, funds at ECF have granted more than $170 Million since 1989. The Well Endowed Podcast is just one of the ways you can stay apprised of the work these funds accomplish.

Edmonton is rich with passionate, dedicated people who want to build a vibrant community, and the podcast explores the impact that these champions are having on our city. That these champions are so much more.

Each podcast features stories about donors and what inspires their generosity. You will also hear about the people who use our support to build and sustain social initiatives, empower youth, strengthen arts and culture, and so much more.

November’s Stories:

- Dr. Bukola Salami (one of Edmonton’s Top 40 under 40) shares her research about the health of newcomers to Canada. We listen in as the Edmonton and Area Land Trust rescues several native Albertan plants from a highway expansion. We learn about how the Fort Edmonton Canoe Brigade brings us together to celebrate Canada’s 150th. And we speak with Emmy Stuebing about how her legacy of giving in Edmonton will continue even after she moves to Victoria.

The Well-Endowed Podcast launched its first episode on October 1, and each month we will invite you back to hear more about the support ECF provides.

Wrapped in a Blanket of Love
At age 2 Kelly Falardeau suffered burns to 75 per cent of her body. For most of her early years she had to endure corrective surgeries every two months. As a teenager she also bore endless teasing being called “scarface.” Kelly knows pain. But she also knows love.

Kelly’s ‘Blankets for Burn Kids Fund’ at ECF hasn’t emerged, but she is helping the endowment grow by selling blankets adorned with her artwork and the message, “You are Needed... You are Wanted...” She also gives many of her blankets away: kids at burn camps, firefighters in Fort McMurray, and kids she hears about who have also suffered burns.

Two year-old Rosie is one blanket recipient with whom Kelly feels a kinship. Rosie also suffered burns to 75 per cent of her body. And Kelly says, “She is also the child of a single mom, and we share the same birthday!” Out of Kelly’s hardships have grown many talents.
She is now a best-selling author, motivational speaker and self-taught painter. It was through her paintings that the idea for ‘Blankets for Burn Kids’ grew. She had been selling her paintings on Facebook when she learned she could have her artwork reproduced on blankets.

“Timeless contributions. Endless possibilities,”

I want these kids to know they are loved and needed.”
